Dr. Trueh Consulting work focuses in 3 areas: Business Leadership, Ministry, and Home Health Care.

## Speaking Topics

### Business Coach

A Business Coach with the necessary information and resources needed to help women start and manage a successful business is a lifesaver. Our many years of experience in making sure the vision, mission, and purpose statement of clients have clarity and are in alignment with their goals is our focus. Helping clients stay on track to achieve these goals in a timely manner is our business.

### Leadership and Management

Our leadership training is focused on producing good leaders who will listen to their customers, in order to gain a good customer relationship, and the ability to work effectively in the community. Building a great team in their business that is impeccable and honest will make their business successful and reputable. UWLGN teaches good leaders to serve and delegate.

### Entrepreneurs and Small Business Owners

These two business entities are interchangeable, and the world as well as the local economy solely depends on revenue. Entrepreneurs and Small Businesses help to foster innovation, promote economic development, and create jobs. We offer personal and professional development training to our clients. We offer workshops for Startup individuals that have a vision/idea to start a business, and we also work with existing businesses who need to take their business to another level.
